DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 12/8/2003 is acknowledged by the examiner.

Allowable Subject Matter

2. Claims 1-14 are allowed.

3. The following is an examiner's statement of reasons for allowance: U.S. Pat. No. 4,449,649 (Flannigan) discloses an access fitting comprising a housing having a base (18a) and a cap (18b), inner port (30), outer port (41), a septum (34), a bag (13), and a hole (40) but lack a tubular connector and the bases being on the interior of the bag. U.S. Pat. No. 3,707,239 (Harris, Sr. et al.) discloses an access fitting comprising a base (59), a cap (51), a septum (37), an inner port (33), an outer port (41), and a tubular connector (40) that is axially adjustable (via the threads) but lacks the fitting being connected to a bag or the septum being slidably adjustable. Moreover there is no motivation to combine Flannigan with Harris, Sr. et al. in order to arrive at Applicants' claimed invention

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 3753

U.S. Pat. No. 3,581,573 (Purcell) discloses an access fitting having a septum and a tubular connector.
